

CALL FOR PAPERS

CPSL 2025

7th Conference on Production Systems and Logistics

March 18 – March 21, 2025

Lima, Peru

by  publish-Ing.

Co-Host

The **CPSL** is an international conference for the scientific exchange of current findings in the wide field of production systems and logistics. All submitted papers will be published open access with individual DOI after they have been reviewed in a two-stage peer review process by experienced scientists from renowned research institutes as well as authors of other submitted papers.

The 7th CPSL will be co-hosted by the University of San Ignacio de Loyola (USIL) and will take place at their facilities – the perfect space for highly interesting presentations, inspiring keynote speeches, and pleasant exchange to further expand scientific networks. With our renowned, international, and diverse committee a strong foundation is set for high quality discussions and plenty opportunities for beneficial cooperations. As always, where the conference dinner will take place remains a surprise for now, but we can assure you of one thing - as every time, it will be a memorable evening.

Automation

Machine Learning & Data Mining

Business Administration
